### Purpose:

Limit the consecutive terms of elected officers in a specific position so leadership can be developed, shared, and spread among the association membership.

### Policy Statement:

No member can hold the same elected Executive Committee position including Director for greater than 3 consecutive terms. The member would be required to leave the particular position for one term before seeking that same position. Multiple 3 consecutive terms of service in the same office would be allowed with a gap term in between the service stints for the specific office. The Executive Committee positions are defined in the WCBA Constitution and By-laws.

This policy does not apply to appointed positions that may be made by the WCBA President or the President's successor.
